

We are currently looking for a

*Graduate Geologist or
Graduate Environmental Scientist*

Working out of our Dingwall office the candidate must have a relevant degree and will be predominantly site based, duties will include:

- Geotechnical on site testing
- Trial pitting and logging of soils
- Supervision of drilling contracts
- Groundwater and ground gas monitoring
- Preparation of H&S documentation

Any experience of the geotechnical or construction industry is a plus, although full training will be given. The candidate will be physically fit, have the ability to work on their own and have a full UK driving licence. The successful candidate will be paid hourly at competitive rates of pay and will work approximately 30 hours per week. Occasionally work away from home is required and appropriate notice and board will be provided.

If you are interested please send a CV with covering letter before Friday 27th January 2012 to:
